ABSTRACT

In 1999, the Florida Comprehensive Assessment Test (FCAT) was administered to students in grades 4, 5, 8, and 10 to assess student achievement of the Sunshine State Standards in reading and mathematics as mandated by the Florida legislature. This report informs administrators, legislators, and the general public about the reading and mathematics assessment results. This report presents the results for the 154,948 fourth graders taking the standard curriculum. In the fourth grade, the FCAT is administered for reading only. The percentages of students scoring at each of five achievement levels are reported for schools, districts, and the state in table form. A booklet summarizing information about the FCAT and presenting sample questions is appended. (Contains three sets of tables.) (SLD)

The Florida Comprehensive Assessment Test

Introduction

In 1999, the Florida Comprehensive Assessment Test (FCAT) was administered to students in Grades 4, 5, 8, and 10 as mandated by the Florida Legislature through Section 229.57, Florida Statutes. The FCAT assessed students' achievement of the *Sunshine State Standards* in reading and mathematics.

FCAT reading and mathematics tests were developed by the Assessment and Evaluation Services Section of the Florida Department of Education with the extensive involvement of classroom teachers, curriculum specialists, administrators, and citizens from throughout Florida. The Assessment and Evaluation Services Section administers FCAT annually and is responsible for reporting information about student proficiency to students, parents, educators, legislators, and citizens. Students and their parents or guardians receive individual student reports; teachers and administrators receive school and district reports.

The purpose of the *State, District, and School Report of Results, 1999 FCAT Administration, Grade 4*, is to inform district- and state-level administrators, legislators, and the general public about the reading and mathematics assessment results.

Sunshine State Standards

In May 1996, the State Board of Education adopted the *Sunshine State Standards*—a comprehensive listing of what students should know and be able to do at various stages of educational development. These standards include more challenging content for students to learn than previous state standards and set clear expectations for student knowledge and skills. FCAT provides a common basis for measuring Florida student achievement of the high expectations set by the *Sunshine State Standards* in mathematics and reading. Though FCAT does not directly assess student achievement in the other five subject areas of the *Sunshine State Standards* (science, social studies, the arts, health/physical education, and foreign languages), FCAT test questions and reading passages use information and topics from these other subject areas.

Population Tested

The FCAT was administered to fourth grade (reading only), fifth grade (mathematics only), eighth grade, and tenth grade students enrolled in Florida's 67 school districts and the four university laboratory schools. This report presents the results for the 154,948 fourth grade standard curriculum students who participated in the assessment.

The results for certain exceptional education students (ESE) and limited English proficient (LEP) students are reported separately.

FCAT Questions

FCAT test questions are designed to measure specific *Sunshine State Standards* benchmarks for reading and mathematics. Four types of test questions are used in FCAT: multiple-choice, gridded-response (mathematics only), short-response, and extended-response.

Multiple-choice questions present direct questions or statements to be completed and four answer choices. These questions are worth one point each. Students are expected to spend approximately one minute to answer each multiple-choice item.

Gridded-response questions are used only on the mathematics tests and require students to fill in bubbled grids to indicate their numeric solutions to mathematics problems. These questions are worth one point each. Students are expected to spend approximately one-and-a-half minutes to answer each gridded-response item.

Short-response questions require students to provide answers in words, diagrams, or numeric solutions. These questions are worth 2 points each. Partially correct answers are worth 1 point. Students are expected to take about 5 minutes to respond to each short-response item.

Extended-response questions require students to draw pictures, make tables or lists, create graphs, explain solutions to problems, or answer questions about informative and literary texts. These questions are worth 4 points each. Partially correct answers are worth 1, 2, or 3 points. Students are expected to take about 10–15 minutes to complete each extended-response item.

Reports of Scores

FCAT test scores are of two types:

FCAT Total Scores. For FCAT mathematics and reading tests at each grade level, the 1999 student results are reported on similar total score scales. The lowest possible score is 100; the highest possible score is 500. The total score represents

achievement on an entire reading test or mathematics test. Eighth and tenth grade students, who take both reading and mathematics tests, receive separate total scores for each test.

Although the highest and lowest scale scores are the same, the total scores from the two different tests cannot be directly compared. A total score of 350 on a mathematics test does not represent the same level of achievement as a total score of 350 on a reading test; the subject area test scores must be considered independently.

Mean total scores are reported for districts and the state.

FCAT Subscores. In addition to the total scores, subscores are reported for each reading and mathematics test. Subscores indicate a student's achievement on the five mathematics strands (Number Sense, Concepts, and Operations; Measurement; Geometry and Spatial Sense; Algebraic Thinking; and Data Analysis and Probability) and the two reading reporting categories (Constructs Meaning from Informational Text and Constructs Meaning from Literature). Each subscore represents the percentage of content in that area that the student responded to correctly.

Mean subscores are reported for districts and the state.

Reports of Achievement Levels

Following the 1998 FCAT administration, groups of educators, business leaders, and citizens met to identify student achievement levels that were subsequently approved by the State Board of Education in November 1998. Achievement levels were defined separately for FCAT reading and mathematics tests.

These achievement levels form the basis for reporting student results from the 1999 FCAT administration. Achievement levels range from Level 1 (lowest) to Level 5 (highest) and are based upon a student's total FCAT reading or mathematics score. The FCAT achievement levels are described below.

Achievement Levels

Level 5: Performance at this level indicates that the student has success with the most challenging content of the *Sunshine State Standards*. A Level 5 student answers most of the test questions correctly, including the most challenging questions.

Level 4: Performance at this level indicates that the student has success with the challenging content of the *Sunshine State Standards*. A Level 4 student answers most of the test questions correctly, but may have only some success with questions that reflect the most challenging content.

Level 3: Performance at this level indicates that the student has partial success with the challenging content of the *Sunshine State Standards*, but performance is inconsistent. A Level 3 student answers many of the questions correctly, but is generally less successful with questions that are most challenging.

Level 2: Performance at this level indicates that the student has limited success with the challenging content of the *Sunshine State Standards*.

Level 1: Performance at this level indicates that the student has little success with the challenging content of the *Sunshine State Standards*.

The percents of students scoring at each achievement level are reported for schools, districts, and the state.

FCAT

Florida Comprehensive
Assessment
Test

Keys to FCAT

Information About the Test

This book is provided to help students learn more about FCAT so they will be better prepared for the test when it is given.

Before the end of the school year, students will receive these FCAT Reading scores:

Reading Total Score and Subscores for

- Literature
- Information

The highest possible Total Score is 500 and the lowest possible score is 100. Subscores represent the percentage of content that a student responded to successfully in each content area.

About FCAT

Questions and answers about the test

What is the Florida
Comprehensive
Assessment Test?

The Florida Comprehensive Assessment Test (FCAT) is a test designed to measure benchmarks in the Florida *Sunshine State Standards*.

Who takes FCAT?

Students take FCAT reading tests in Grade 4, mathematics tests in Grade 5, and both reading and mathematics tests in Grades 8 and 10. Only a few categories of special students will be exempt; all other students must take FCAT.

Is FCAT a difficult test?

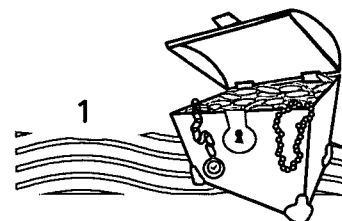

FCAT contains questions that are challenging for all students.

Why do students
take FCAT?

Recently, what students in Florida are expected to learn and be able to do has increased a great deal. The job market of today requires people who are proficient in advanced mathematics and who can read and construct meaning from difficult and technical texts. FCAT is being given to measure achievement of the high-level *Sunshine State Standards* that are being taught to and learned by Florida students.

What kinds of questions
will be on FCAT?

Many of the test questions on FCAT are like those you may have answered on other classroom or standardized tests. FCAT also includes questions called “performance tasks.” This book provides examples of the types of questions that will be on FCAT.

What are performance tasks?

Performance tasks require thinking about a question and writing the answer. Some of these tasks ask for short responses like an equation for a problem or a description of how a character in a story changes. Other tasks require longer, more detailed responses such as constructing a graph or writing a comparison of two passages. Performance tasks are called “Read, Think, and Explain” questions in reading and “Think, Solve, and Explain” questions in mathematics.

How many questions will be on FCAT?

For FCAT reading tests, there will be about 45 multiple-choice questions and 10 performance tasks based on 6–7 reading passages.

Who scores FCAT?

Multiple-choice answers will be scored electronically. Each answer to a *performance task* will be scored by two people trained as professional evaluators. The final score for an answer will be a combination of both evaluators’ scores.

How can students prepare for FCAT?

This book describes the types of questions used on FCAT. Separate sample test books include practice questions.

Will student scores be reported?

Student scores will be distributed before the end of the school year. Scores also will be reported for each school, school district, and the state.

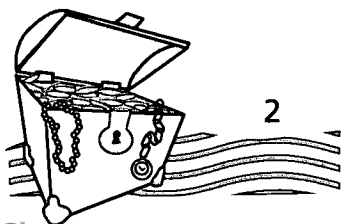

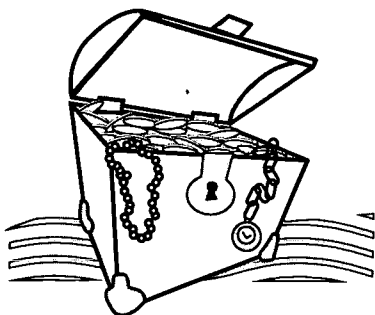

What are FCAT questions like?

FCAT questions use topics from subject areas such as social studies, science, health/physical education, the arts, and the workplace, as well as from reading and mathematics.

Graphic displays and illustrations are used a lot in FCAT. Graphics give necessary information and also provide pictures related to the questions. The use of graphics helps create interesting pages and also helps students grasp information better by giving them visual clues.

The ability to use thinking and problem-solving skills is important for success in today’s world. Therefore, FCAT questions and performance tasks incorporate thinking and problem-solving skills that match the complexity of the standards being assessed.

Clues for Taking FCAT

Hints for performing well on FCAT

= A clue

This key symbol appears throughout this book.

It is placed next to clues that will help you do well on FCAT.

Learn how to answer each kind of question. Each FCAT reading test has three types of questions: multiple-choice, short-answer, and long-answer.

Plan to take about 5 minutes for each short-answer question and 10–15 minutes for each long-answer question.

Read each question carefully and think about the answer before writing a response.

Answer questions you are sure about first. If a question seems too hard, skip it and go back to that question later.

There is no penalty for guessing or for wrong answers. Therefore, it is best to try to answer all questions, even if you are not sure of the correct answer.

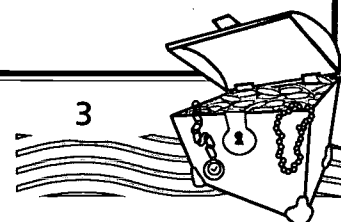

Think positively. Some questions may seem hard, but you may be able to figure out how to answer if you read the questions carefully.

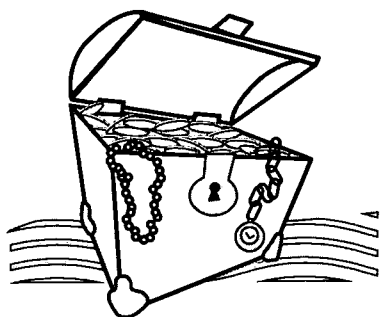

Be sure to fill in the answer bubbles correctly. Do not make any stray marks around the answer spaces.

Relax. Some people get nervous when taking a test. It's natural. Just do your best.

FCAT Reading Tests

Types of Reading Questions

Each FCAT reading test contains two or three literary passages such as short stories and poems, and four or five informational passages such as magazine articles and selections from books, with questions about each passage. Each test contains both short and lengthy passages. The selections represent different content areas such as mathematics, science, social studies, language arts, and health and physical education.

Multiple-choice

FCAT multiple-choice questions always have four answer choices.

Students should choose the best answer. A correct answer for a multiple-choice question is worth 1 point.

The FCAT Reading “Read, Think, and Explain” questions include “short-answer” and “long-answer” questions. For these types of questions (also called “performance tasks”), students must read all parts of the questions carefully, plan how to answer the questions, and write the answers in their own words.

Short-answer

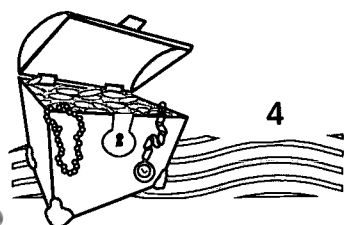

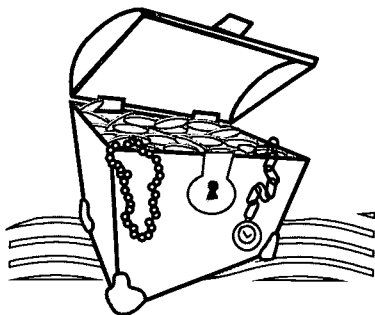

This symbol appears next to questions that require short written answers. Use about 5 minutes to answer these questions. A complete and correct answer to each of these questions is worth 2 points. A partial answer is worth 1 point.

Long-answer

This symbol appears next to questions that require longer written answers. Use about 10-15 minutes to answer these questions. A complete and correct answer to each of these questions is worth 4 points. A partial answer is worth 1, 2, or 3 points.

Sample Reading Questions

These questions are samples of multiple-choice, short-answer, and long-answer questions like those on the reading tests. A sample answer is included with each sample question.

Sample Multiple-Choice Question

1 Why does Chris sometimes dig up the turtle eggs?

- A. to stop dogs from getting them
- * B. to move them away from the tides
- C. to help the mother sea turtles find them
- D. to make sure people do not step on them

**correct answer*

Sample Short-Answer Question

2

READ
THINK
EXPLAIN

Read the description by the picture. What might happen to baby turtles confused by streetlights? Use details and information from the article to support your answer.

The baby turtles might get confused by the lights,

thinking they are the natural light on the ocean water.

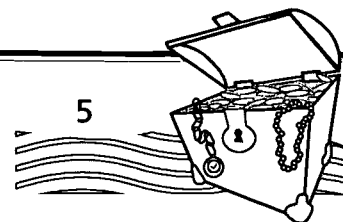

They might head in the wrong direction and go away

from the water instead of toward it.

Read the passages and questions very carefully. Look back at a passage as often as needed to answer the questions correctly.

BEST COPY AVAILABLE

Read:

Read the passage, then read each question carefully. Make sure you understand the question before you begin to write your answer.

Think:

Plan your answer before you begin to write. Make sure you understand the information from the passage that is necessary to answer the question correctly. Re-read the parts of the passage that contain important information.

Explain:

Explain your answer clearly in writing. Answer every part of the question. In your answer, be sure to include details and information from the passage. Some students will use all of the lines provided; others will not. This is okay as long as you provide a complete response. Use as much of the recommended time as you need.

Sample Long-Answer Question

3

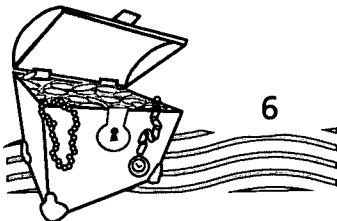

What are the things Chris does to help the turtles? Use details and information from the article in your answer.

Chris patrols the beach during the turtle nesting season. He checks the nests to be sure the eggs are safe. Sometimes he digs up the eggs and buries them in a safer place. He protects the eggs from high tides that might bury the nests and drown the turtles. He rescues baby turtles that are trapped under their eggshells. He puts them in the ocean so dogs can't eat them.

Check each answer to make sure it is the best answer for the question asked.

Reading Content Tested

The *Sunshine State Standards* set clear expectations of the reading comprehension processes and skills that students are expected to be able to apply at Grades 4, 8, and 10. FCAT reading tests employ a wide variety of written material to assess students' reading comprehension as defined in the *Sunshine State Standards*. FCAT reading tests include informational and literary reading passages. Informational passages are written to provide readers with factual information. Examples of the types of informational passages used on FCAT are magazine and newspaper articles, editorials, and biographies. Literary passages are written primarily for readers' enjoyment. Examples of the types of literary passages used on FCAT are short stories, poems, folk tales, and selections from novels. FCAT reading tests for Grade 4 assess the following reading comprehension skills and processes:

- determining the meaning of words, phrases, and sentences in the context of a passage
- determining stated or implied main ideas or essential messages
- identifying the author's purpose
- recognizing the difference between facts and opinions
- recognizing the use of comparison and contrast
- recognizing cause-and-effect relationships
- understanding plot development and conflict resolution
- knowing similarities and differences among characters, settings, and events
- reading and organizing information from different sources for a variety of purposes
- selecting and using a variety of reference materials, including maps, charts, and photographs, to gather information for a variety of purposes
